MODERN PEDAGOGY

The school looks towards identifying and supporting each student's potential and recognizing ones strengths, as well as building their unique capacities. The curriculum is delivered through projects and experiential learning modules, to give students a deeper opportunity for engagement with the subject matter.

We aim to create a fine balance between academic excellence, artistic expression along with practical skills supporting the emotional and social development of all the students. Life skills like social skills, thinking skills - critical, creative, decision making and problem solving, emotional skills and attitudes and values are embedded in the curriculum. Our ultimate aim is to help children become autonomous learners. Communication skills are key area we constantly address for our growing learners, both through internal program, as well as by partnering with external sources.

JOYFUL LEARNING in happy School

BPSG is a school where all members of the school community have equal access to learning opportunities and enjoy growing and learning together. Our well designed and integrated curriculum supports and extends the innate curiosity of all children and develops the attitudes and skills necessary to gain an understanding of the world around. Happiness is the part of school curriculum. The students experience the joy of learning, gain a deep understanding of the important concepts, learn to accept personal responsibility for actions, decisions and guided by motivated, well-trained and nurturing teachers.

Students learn in a caring environment where their views and ideas are freely expressed and valued. Learning to learn approach promotes critical thinking and creativity, encourages research-based classroom transactions and teaches respect for individual differences.
