CONTINUOUS LEARNING EVALUATION - I

Session 2022-23

Class - LKG

Dear Parent,

It has been advised that evaluation can be done by taking all the aspects of a child into consideration rather than evaluating them from academic aspects as per NEP 2020. BPSG is emphasising that the word 'examination' should not be in the minds of young children and to eliminate that we solely focus on the activity based integrated learning for the holistic development of each student. Hence, this is the time to recapitulate/revise before moving further but in a joyful manner through learning by doing methodology. The assessment of the child will be based on different parameters: Listening, Speaking, Reading and Writing skills during regular classes for the continuous development of cognitive, conative and affective domains of the students.
