### **Brief note about activity:**

BPSG always thrives to cater to the all-round development of their students. The main focus of rhymes in a class 6 setting accounts to a more nuanced approach to language and literature. Students delve into the artistic and poetic aspects of rhymes, focusing on their rhythmic and melodic qualities. This introduces students to the musicality of language and helps them appreciate the beauty of poetry. Performing rhymes can enhance public speaking and presentation skills. Students have the opportunity to work on voice modulation, expression, and performance confidence. The focus extends to exploring the literary and artistic aspects of rhymes, encouraging critical thinking, and enriching vocabulary, while still allowing for creative self-expression and cultural exploration. With this intention in mind an event titled RHYMESTER was organised for the students of Class VI on Friday, 13<sup>th</sup> October, 2023.

### **Outcome of Activity:**

- Rhymes help improve vocabulary, pronunciation, and language comprehension. They introduce students to new words and their meanings, enhancing their language skills.
- Memorizing rhymes enhances memory and cognitive development in young learners. It helps with pattern recognition and mental agility.
- Rhymes encourage creativity and self-expression. Students often enjoy creating their own rhymes, fostering imagination and artistic abilities.
