

Session: 2023-24

Report on Educational Visit to Tanta University

Birla Public School Ganganagar orchestrated a transformative educational visit to Tanta University on December 20, 2023. This initiative targeted students of Class X and XI, with the primary objective of augmenting their understanding of medical sciences and anatomy, coupled with firsthand exposure to practical applications through laboratory tours and demonstrations. The visit took place from 10:00 am to 12:00 noon, spanning a duration of two hours. This timeframe was carefully chosen to ensure students had ample time to engage with the university's facilities and gain valuable insights into the field of medical sciences.

Students were given the opportunity to explore various laboratories, gaining firsthand experience in medical procedures and experiments. This hands-on approach aimed to bridge theoretical knowledge with practical application. The visit included live demonstrations showcasing practical applications of medical knowledge. These demonstrations were conducted by experts from Tanta University, providing students with a glimpse into the real-world applications of medical sciences. Students had the chance to engage in interactive sessions with faculty members and professionals at Tanta University. These sessions allowed for questions, discussions, and a deeper exploration of medical topics.

The educational visit proved to be highly impactful, offering students a comprehensive understanding of medical sciences beyond the confines of traditional classroom learning. Witnessing practical applications in a university setting served to ignite curiosity and foster a greater interest in the field among the students. The visit was a commendable initiative, aligning with our commitment to providing holistic educational experiences. We believe that such excursions contribute significantly to the academic and personal development of our students.
