Curiosity-The Virtual Coding Summer Camp

"The future belongs to coders and problem solvers"

Dear Parents,
Greetings of the Day!

Let's make this Summer fruitful. It's time to explore & enhance your skills.

Birla Public School Ganganagar is organizing *Curiosity- The Virtual Coding Summer Camp*, under the banner of SuperTeacher Edureforms Pvt Ltd in collaboration with WISSENAIRE (IIT Bhubaneswar).

The present age is the age of information; smartphones, robots, apps, programmes, businesses etc., everything requires coding. As everything has become more and more automated and intelligent, coding-related jobs will be both lucrative and essential in the near future. In agreement to the above fact, the ministry of education, in the National Education Policy 2020, has also recommended introducing coding and AI to the students from a very early age.

The camp will help students bloom their inner coder in preparation for the future. Additionally, as polishing one's coding skills improves creativity and critical thinking; it also translates to better performance in other subjects too!

Hence, an online orientation programme is being organized to understand about this programme deeply.
