Session 2025-26

Event Report

Class IV

EVS Event (Food Forensics)

Day & Date: December 17, 2025 (Wednesday)

Event Name: Food Forensics

Objectives:

- To help students identify different nutrients present in food.
- To develop observation and analytical skills through simple experiments.
- To promote awareness about healthy eating habits.
- To make science learning fun, interactive, and engaging.

Total No. of Students: 58 (IV-A & IV-B)

No. of Participants: 36 (IV-A & IV-B) (22 Absent)

Event Highlights:

- Students enthusiastically participated in the Food Forensics activity and explored the science behind everyday food items.
- The classroom was transformed into a mini science lab where students became Food Detectives.
- Students conducted simple and safe experiments to test food items for nutrients such as carbohydrates, proteins, and fats.
- They carefully observed colour changes and recorded their findings, enhancing their scientific thinking skills.
- Students also prepared colourful charts on healthy food choices and discussed the importance of a balanced diet.
- The activity encouraged teamwork, curiosity, and active participation, making learning joyful and meaningful.

Outcome of the Activity:

- The event enhanced students' understanding of nutrients and their role in maintaining good health.
- Students developed observation, reasoning, and analytical skills through hands-on learning.
- Participants showed increased awareness of healthy and junk food choices.
- The activity fostered curiosity, confidence, and interest in science.
- Students enjoyed experiential learning and demonstrated improved presentation skills.

Enclosures:

- Circular of the Event
- Poster of the Event
- Photographs for Evidence

Session 2025-26

Circular

Ref. No: BPSC/2025-26/EC/0062-G Date - 9th November 2025

Date: 17 December 2025
Subject: Science Event - "Food Forensics" (For Class IV)

Dear Students,
The Science Department is delighted to announce a special event titled "Food Forensics" to be held on 17 December 2025, exclusively for Class IV students. The event aims to make students understand the importance of food and nutrients through fun and hands-on activities. Students will act as "Food Detectives" to test the presence of different nutrients in various food items and prepare a chart on healthy food choices.

Objectives of the Event:

- To help students identify different nutrients present in food.
- To develop observation and analytical skills through simple experiments.
- To promote awareness about healthy eating habits.
- To make learning science interactive, engaging, and enjoyable.

Event Details:

- Topic: Food Forensics
- Date: 17 December 2025
- Venue: Classroom
- Participants: Class IV Students

All students of Class IV are required to participate enthusiastically in the nutrient testing activity and chart preparation.

Let's explore the science behind what we eat and uncover the secrets of healthy living!

Best regards,
BPSG
