Computer Event Report:
Mirror Art – The GIMP Activity

Day & Date: Tuesday, 2 December 2025

Class: VI

Event Name: *Mirror Art – The GIMP Activity*

Objective of the Event:

The objective of the event was to introduce students to digital image editing using GIMP and to develop creativity through the creation of mirror-reflection artwork. The activity aimed to enhance students' digital skills and confidence in using advanced computer applications.

Event Highlights:

The "Mirror Art" GIMP activity was conducted successfully for Class VI students with enthusiastic participation. Students worked hands-on with GIMP to edit images and create mirror and symmetrical designs. They learned essential tools such as flipping, layering, cropping, and applying effects.

Teachers guided students throughout the activity, encouraging creativity and experimentation. Students transformed simple images into visually appealing mirror art, making the learning experience engaging and enjoyable. Outstanding creations were appreciated and displayed.

Outcome of the Event:
- Students developed digital image-editing skills.
- Creativity and artistic expression were enhanced.
- Confidence in using advanced computer tools increased.
- Students gained practical exposure to GIMP software.
