Computer Event Report:
WebCraft Expo – The HTML Webpage Design Event

Day & Date: Tuesday, 2 December 2025
Class: VII
Event Name: *Draw with AI* – Computer Event

Objective of the Event:
The objective of the event was to introduce students to the fundamentals of web design and HTML. The activity aimed to enhance creativity, logical thinking, and understanding of how webpages are structured and designed.

Event Highlights:
The *"WebCraft Expo"* HTML Webpage Design Event was conducted successfully for Class VII students with active participation. Students learned to create simple and structured webpages using basic HTML tags such as headings, paragraphs, images, lists, tables, and background colors.
Under the guidance of teachers, students designed attractive and meaningful webpages while experimenting with layout and presentation. The hands-on activity helped students understand the basics of website creation in an engaging manner. Exceptional webpage designs were appreciated and showcased.

Outcome of the Event:
• Students gained foundational knowledge of HTML and web design.
• Creativity and logical thinking skills were enhanced.
• Confidence in designing simple webpages increased.
• Students developed interest in web development and digital design.
