## CIRCULAR

### Mathematics Event: “ Maths Market ”

#### Class: II

**“ Maths is not just numbers on paper, it is the market of ideas where every child learns to count, measure, and create.. ”**

Dear Parents,

We are pleased to inform you that a Mathematics Activity titled, “ **Maths Market** ” will be conducted for Class 2 students on **4th May 2026** during the respective Mathematics period in the classrooms.

#### Objectives of the Event:

- To make mathematics learning fun, practical, and interactive.
- To help children connect maths with real-life situations like shopping, measuring, and counting.
- To encourage creativity, teamwork, and communication skills among students.
- To build confidence by allowing children to present and explain concepts in a playful way.

#### Activities Students Can Choose:

1. **Runa Stall** – Students can act like running a stall (fruit shop, toy shop, cloth shop) and use fake currency for buying and selling. (currency they will get from school)
2. **Play Shopkeeper & Customer** – Students can role-play as shopkeeper and customer, practicing addition, subtraction, and giving change.
3. **Counting Games** – Counting and arranging objects (fruits, pencils, beads) in sets.
4. **Measurement Fun** – Weighing small items on a balance or measuring cloth with a scale.

#### Instructions:

- Students are required to prepare **any one** of the following at home and present it in class on the day of the event:
- Students must be able to explain and present their role confidently

We look forward to your support in motivating the children to participate enthusiastically. This event will help them experience maths beyond the classroom and enjoy learning through play.

Warm regards,

**ESTD. 2019**
