**Report**

## **Birla Public School Joins Dainik Bhaskar's '7.5 Million Trees' Mega Campaign**

### **BITS Pilani Honourable Deputy Director Ajay Kumar Aggarwal Leads Plantation Drive, Plants 50 Saplings to Promote Environmental Conservation**

**Sri Ganganagar, July 31:**

With the objective of transforming environmental conservation into a people's movement, Birla Public School, Sri Ganganagar, organized a grand tree plantation drive on Friday under **Dainik Bhaskar's '7.5 million Trees' Mega Campaign**. The programme was inaugurated by honourable **Mr. Ajay Kumar Aggarwal, Deputy Director, BIT Pilani**, who planted the first sapling. On this occasion, **50 saplings of different species** were planted across the school campus. In recognition of the school's active participation in the campaign, **Dainik Bhaskar** presented the institution with a **Certificate of Appreciation**.

The programme was attended by **Dr. Nitesh Kumar Singh, Principal, Mrs. Sushila Saharan, Vice Principal, Mrs. Akanksha Khullar, Headmistress**, along with members of the teaching and non-teaching staff. All the participants planted saplings and pledged to protect and nurture them, reaffirming their commitment to environmental conservation.

Addressing the gathering, honourable **Mr. Ajay Kumar Aggarwal** said that environmental conservation is one of the greatest necessities of our time. He emphasized that merely planting trees is not enough; their protection and proper nurturing are equally important and are the moral responsibility of every citizen. He further stated that such initiatives not only spread awareness about environmental conservation but also lay a strong foundation for a cleaner, greener, and more sustainable future for the coming generations.

Speaking on the occasion, **Dr. Nitesh Kumar Singh, Principal**, said, *"Trees are nature's priceless gift and the very foundation of human life. Protecting the environment is not merely a responsibility but also our moral obligation towards future generations. If every individual plants a tree and takes responsibility for its care, the dream of a greener and safer future can certainly become a reality."*

**Mrs. Sushila Saharan, Vice Principal**, remarked, *"Tree plantation becomes meaningful only when it is accompanied by a commitment to protect and nurture the saplings. Sensitivity towards nature and responsible environmental practices pave the way for sustainable development. We must continue our efforts to promote a green culture among all sections of society."*

**Mrs. Akanksha Khullar, Headmistress**, said, *"Every sapling planted today is a promise of a secure tomorrow. Instilling the values of environmental conservation among students is*

*the need of the hour. When the younger generation embraces nature conservation as its responsibility, only then can we build a clean, green, and environmentally balanced society."*

The programme concluded with all participants taking a pledge to plant more trees and ensure their regular care and maintenance. The school administration expressed confidence that such public awareness initiatives would continue to strengthen students' sensitivity towards nature, social responsibility, and their commitment to sustainable development.
